

Tender for Short term Experts for Ethiopia

### Expert for Organic Cotton Agriculture

Within the framework of the project, training and capacity-building activities for the cotton farmers are planned to be organized for the campaigns 2024-2026. The trainings aim at increasing the capabilities in pest management and the improvement of soil fertility. Previously, the Ethiopian organic cotton farmers struggled with the yield due to pest control problems and a lack in access to and knowledge about organic fertilizers.

We are looking for an Expert who will be responsible for the following assignments

- Consultancy on organic farming practices in Ethiopia
- Preparation and contributions to the implementation of the 2024-2026 cotton campaigns
- Development of Cotton Standards and Certification of Cotton like ECOCERT or GOTS
- Training of Trainers from the Arba Minch region and potentially further pilot regions

The Expert should be in the position to deliver the following training

- Concept Paper for the Training of Trainers in organic cotton farming
- Training materials used for organic pest management.
- Training for Certification of Cotton and Handling
- Activity Report and Documentation on all trainings for the campaigns 2024, 2025 and 2026

If you have the above-mentioned knowledge and are also able to put it into practice on the field, please send your application with CV and daily fee by 31 December 2023 to:
